SANDIP SAHA

Software Developer (Android)

+91 7318862131 | sandipsaha70755@gmail.com | Dumdum, Kolkata, West Bengal, 700065 | LinkedIn | GitHub | Portfolio

SUMMARY

Software Developer with a strong foundation in Java, Object-Oriented Programming, REST API integration, and database design, gained through Android application development and full-stack web projects. Experienced across the development lifecycle — design, implementation, debugging, and deployment — with two applications published on the Google Play Store. Familiar with Python basics, and comfortable adapting quickly to new languages, frameworks, and enterprise development environments.

EXPERIENCE

Software Developer (Android) — Infosyst **Dec 2025 – Present**

Software Development Company, Kolkata, WB | infosyst.in | LinkedIn

- Design and maintain Android applications using Java and XML layouts, with working exposure to React Native for cross-platform UI components, applying OOP principles across the codebase.
- Contribute to feature implementation, debugging, testing, and release activities across the app development lifecycle.
- Integrate REST APIs and database endpoints with backend services, following secure API communication and Android permission best practices.
- Contributed core development work to 2 production applications published on the Play Store: Mayanki Shopping App and HyBroker Calling App.
- Take part in team discussions and documentation to track feature changes and communicate progress.

PROJECTS

GaaneSuno — Offline Android Music Player **Sep 2024 – Present**

- Built a full-featured offline music player in Java (Android Studio) with background playback via Android Services, media notification controls, seekbar, and shuffle/repeat logic.
- Integrated the iTunes API for 30-second song previews and added a custom video player module with VLC-style controls.
- Implemented an animated splash screen, sleep timer, and ringtone-set feature; focused on clean state management and smooth UX.

Snapgram — Full-Stack Social Media Platform **2024 – 2025**

- Developed an Instagram-inspired platform with Node.js backend, EJS templating, and MongoDB for real-time data storage and user authentication.
- Designed REST-based routes for posts and user sessions; built a responsive UI with CSS — reinforcing full-stack problem-solving beyond mobile development.

Personal Portfolio Website **2023 – 2024**

- Built a fully responsive site using HTML5, CSS3, JavaScript, and Bootstrap with a working contact form (FormSubmit) and smooth animations.

SKILLS

Programming Languages	Java, JavaScript, Python (Basic)
Core Concepts	Object-Oriented Programming, REST API Integration, Debugging, Problem Solving
Mobile Development	Android SDK, Android Studio, XML, React Native
Web Development	HTML, CSS, Bootstrap, Node.js, EJS
Databases	MySQL, SQL, MongoDB
Tools & Practices	Git, GitHub, VS Code, Version Control, Documentation
Soft Skills	Teamwork, Critical Thinking, Communication, Adaptability

EDUCATION

BCA — Brainware University, Kolkata CGPA: 9.08 | 2022 – 2025

Higher Secondary — Harirampur ASDM High School (WBCHSE) 94% | 2021 – 2022

Secondary (Madhyamik) — Harirampur ASDM High School (WBBSE) 83% | 2019 – 2020

CERTIFICATION & LANGUAGES

Web Application Development using MERN

Webguru Infosystems Pvt. Ltd. & Brainware University | Jul–Aug 2024 | 54 Hrs | Grade: B+

Languages

Bengali (Native), Hindi, English
